

How does it work?

- Meercat will configure a website dedicated for you. We maintain the website on your behalf.
- This website will be branded with your colours/logos.

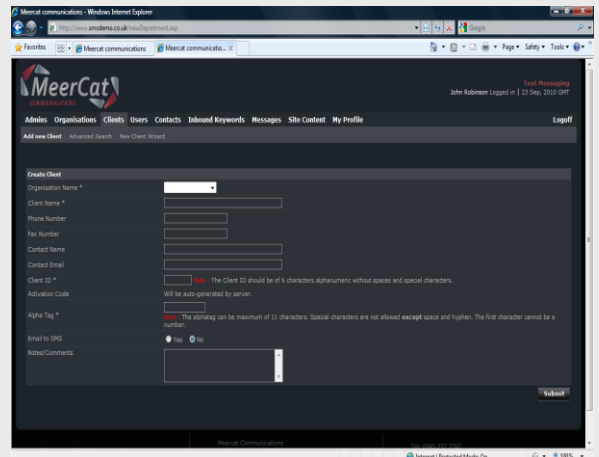

- You can configure any number of companies/departments.
- These departments can be configured with their own administrators so that they in turn can control which of their staff use the system.
- Messages can be sent with personalised alptag/senderid e.g. e.g. All 'Acme Communications' messages arrived at the end users inbox titled **Acme**

Additional Information

- No pre-purchase of message is required.
- You only pay for what you or your clients use.
- You are billed monthly in arrears.
- CDR's can be provided for import into your own billing platform.

What does it cost?

- Website Branding - £395 one off payment.
- Unlimited client's monthly maintenance - £60 per month, plus £1 per additional client added.
- Or Per client monthly maintenance – £10 per month per client.

- Outbound messages to mobile phones are charged at 4.1p per message
- Outbound messages to land lines are charged at 6.5p per message.
- Inbound messages are charged 1.5p per message.
- Alptag/SenderID - £3.00 per month per client.
- Two-way number - £9.99 per month per user.
